CUMPULSORY TASK: ROLE 1

Character Face — Evidence Guide

(Head and Shoulders Portrait Development)

Discussion Guide — record all ideas on your Group Research Sheet

What is this task about?

Use historical clues to interpret what this person may have looked like. Your group is exploring character evidence.

Work like historians: see, say, show

SEE — What do you notice?

Look closely at the images.

Discuss:

What expressions do people have?

Do they look calm, serious, proud or tired?

What clues suggest their work or responsibilities?

SAY — What does the research tell you?

Scan the research text for key words and short phrases.

SHOW — What does this evidence show us?

What kind of person might they have been?

Then, work together to write a clear descriptive sentence that the AI platform can use to generate your character's face.

This sentence should:

Describe facial features

Include expression or mood

Reflect personality or role

Your teacher will then enter this sentence into the Trailmakers website to generate your image.
