COMPULSORY TASK: ROLE 3

Full Body and Appearance — Evidence Guide

(Bringing your character together)

Discussion Guide — record all ideas on your Group Research Sheet

What is this task about?

Use historical evidence to decide how your full character should look.

You will combine:

The face you created

The object linked to your character

Clothing and appearance

Work like historians: see, say, show

SEE — What do you notice?

Look closely at images and references.

Discuss:

What clothing would this person wear?

How would they carry or stand near their object?

Does their appearance match their role and time period?

SAY — What does the research tell you?

Scan the research text for key words and short phrases.

SHOW — What does this evidence show us?

Discuss as a group:

What is your character wearing?

How do they look overall?

How will they be shown with their object?

Then, work together to write a clear descriptive sentence that the AI platform can use to generate your full character.

This sentence should:

Describe clothing and appearance

Include how the object is used

Explain the character's overall look

Your teacher will then enter this sentence into the Trailmakers website to generate your image.
